

Shah Redwan Ahmed

Software Engineer | CTO & Co-Founder

✉ sahmed221241@bscse.uiu.ac.bd |  LinkedIn |  GitHub |  HackerRank | 📍 Dhaka, Bangladesh

EDUCATION

United International University

Dhaka, Bangladesh

B.Sc. in Computer Science & Engineering; **CGPA:3.53/4.00**

Present

- Passionate about building clean, scalable software and sharing knowledge with others
- Actively involved in competitive programming, web development, and community teaching

EXPERIENCE

FazeSoft

Remote

CTO, Co-Founder & Software Engineer

Jan 2024 – Present

- Lead core software development and architectural decisions for more than 12 commercial web applications serving UK and BD clients
- Manage a development team, maintain sprint-based workflows, and drive project delivery using Agile methodologies
- Shipped production systems including property management, e-commerce, logistics, and ERP platforms

Freelance (UpWork & Local)

Remote

Full-Stack Developer

Oct 2023 – July 2024

- Delivered end-to-end React frontends with FastAPI/Express backends for client projects
- Integrated REST APIs, configured auth flows, and deployed production-ready code on tight deadlines

SKILLS

Languages: JavaScript, TypeScript, Python, C++

Frontend: React, Next.js, Tailwind CSS, HTML, CSS

Backend: FastAPI, Express.js, Next.js API Routes, REST API Design

Databases: PostgreSQL, MongoDB, Supabase, Redis, MySQL

Tools & DevOps: Git, GitHub, Docker, Linux, VS Code, Figma, Vercel, Netlify

Problem Solving: Data Structures, Algorithms, Competitive Programming

AWARDS & ACHIEVEMENTS

Best Code Quality – UIU HackDay 2026: (Team: One Last Time)

- Delivered clean, readable, and well-documented code under time pressure with clear separation of concerns
- Maintained strong project structure and naming conventions prioritizing correctness and scalability over quick fixes
- Collaborated effectively within a small team to apply engineering best practices throughout development

2nd Runner-Up – UIU CSE Project Show 2026: ResQTech: UAV-Based Computer Vision System for Flood Detection with Affected People Localization

- Built a deep learning and computer vision pipeline to detect stranded people in flood-affected areas
- Classified victim risk levels to support rescue prioritization and faster disaster response decisions
- Designed a real-time, UAV-compatible prototype as a decision support system for field operations

6th Place: Smart Bangladesh Programming Contest (2023)

HackerRank 5 Star rating in Problem Solving: Achieved top rating in competitive programming

HackerRank 5 Star rating in C++: Demonstrated expert-level proficiency in C++

PROJECTS

NeoScape Properties | React 18, TypeScript, FastAPI, Supabase | FazeSoft

- Built a role-based property management platform with admin/tenant dashboards, rent scheduling, and document management
- Eliminated spreadsheet-based rent tracking for a UK property firm

RiverTyne LTD | *Next.js 16, MongoDB, Nodemailer* | *FazeSoft*

- Developed a 23-page multilingual corporate website with a protected admin CMS and 4-language content system
- Gave a logistics company full control over web content without developer intervention

Manchester Villas (VillaEase) | *React, Django, Supabase* | *FazeSoft* | [Live](#)

- Built a full-stack room booking platform with calendar availability, payment integration, and admin dashboard
- Replaced manual phone/email booking for a Manchester vacation-rental business

MediSecure-SaaS | *React 19, FastAPI, PostgreSQL, Redis* | *University*

- Built a security-focused hospital management system with RBAC, HttpOnly cookie auth, and rate limiting
- Implemented secure patient record management to mitigate data infiltration/exfiltration risks

WanderNest BD | *React, Django, Supabase* | [Live](#)

- Developed a travel platform with tour packages, hotel/flight booking, and user authentication
- Centralized travel discovery into one platform for Bangladeshi travelers

BazarLTD | *React, REST API* | *FazeSoft* | [Live](#)

- Built an e-commerce platform with product listings, cart, checkout, and admin management
- Enabled a retail business to sell online with a complete cart-to-checkout pipeline

+ Additional projects: *HireMate (HR Platform)*, *Ideal Muslim Shop (E-commerce)*, and more

CERTIFICATIONS

HackerRank Certifications: Problem Solving (Basic & Intermediate), Python (Basic), JavaScript (Basic & Intermediate), SQL (Basic), CSS (Basic), Java (Basic), React (Basic)

LEADERSHIP & CO-CURRICULAR ACTIVITIES

UIU Computer Club

General Member

Dhaka, Bangladesh

Jun 2022 – Present

- Active member participating in events, workshops, and programming activities

MindLeap Academy

Campus Ambassador

Bangladesh

Mar 2024 – Present

- Promoted bootcamps and workshops to students
- Helped drive event participation through campus channels

Edvoy Bangladesh

Campus Ambassador

Bangladesh

- Organized awareness sessions and shared scholarship opportunities with students

BAFSD Quiz Club

Executive Member

Bangladesh

Jul 2018 – Aug 2019

- Organized quiz competitions and school events

AREAS OF INTEREST

Technical Interests: Full Stack Development, Software Engineering, REST API Development, Mobile App Development

Problem Solving: Competitive Programming, Algorithm Design, Code Optimization
